

TECHNICAL DATA

Fluke 80PK-3A Surface Probe

Key features

- Measurement range: 0 to 260 °C
- One year warranty

Product overview: Fluke 80PK-3A Surface Probe

Fluke temperature probes expand the functionality of Fluke thermometers. The 80PK-3A Type K Thermocouple Surface Probe is designed for measuring the temperature of flat or slightly convex surfaces, with an exposed junction to allow direct contact with the surface being measured. The probe can be used with any temperature-measuring instrument that is designed to accept type K thermocouples and has a miniature connector input.
