

# Industrial Automation Solution

## Vector Drive

### P200 Series

*Puma*<sup>®</sup>  
The power you can Trust!

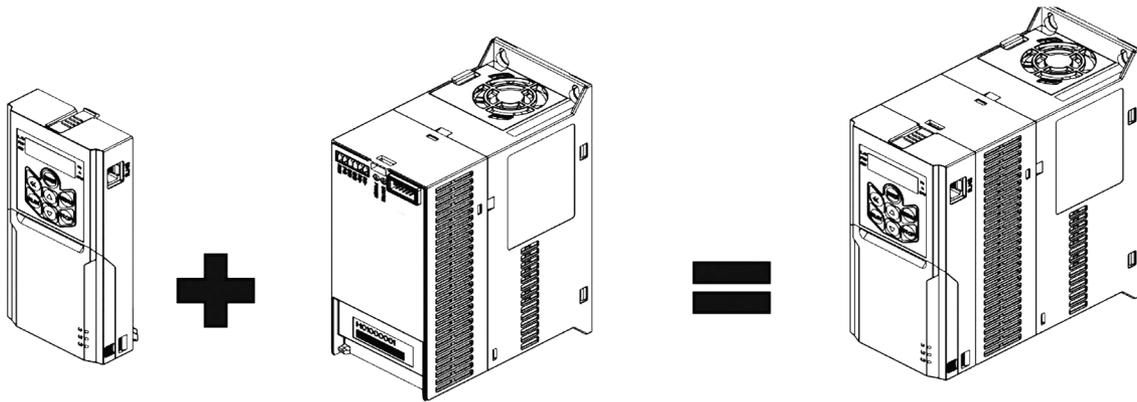

[www.pumaww.com](http://www.pumaww.com)

**P200** – Modularity solution with high performance Vector Control for Multiple applications.

Modularity design include Power unit (PU), Control Unit (CU), External keypads and option cards.

Power range from 0.37kw~415kw.

## 1. One minute understanding P200 Modularity

**CU0L + P200 PU (software version V0.37) = P200L**

Interface and Special Processes Control    Motor and General Application Control

### Selection of Power units (PU):

|      | Model | Power Range | Description                    | Independent Working |
|------|-------|-------------|--------------------------------|---------------------|
|      | PU00  | 0.37~415KW  | NO DI/DO/RS485                 | YES                 |
|      | PU01  | 0.37~7.5KW  | 2DI 1DO 1 RS485                |                     |
|      |       | 11~22KW     | 3DI/1AI/1 10V/1 RELAY/ 1 RS485 |                     |
| PXXX | ~     | Customizing |                                |                     |

### Selection of Control Units(CU):

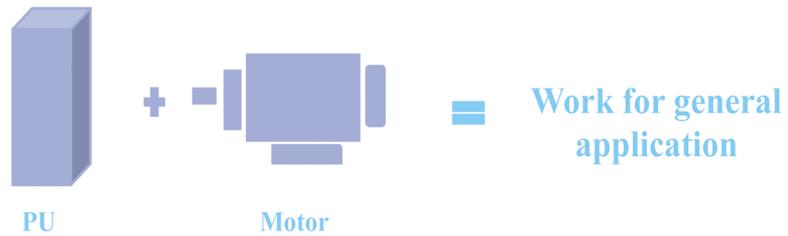

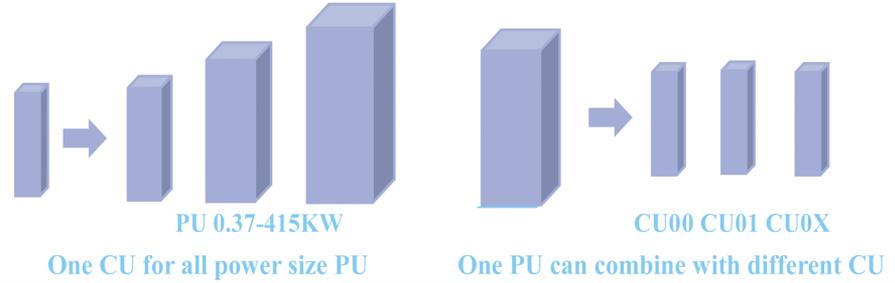

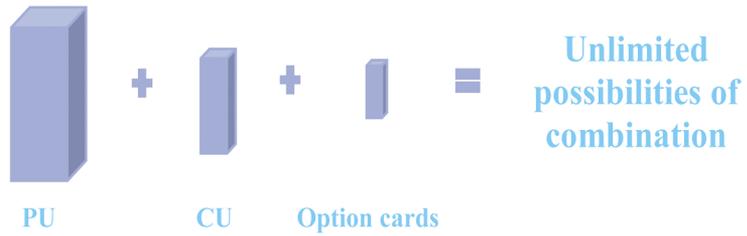

|  | Model | Power                              | Description  |
|--|-------|------------------------------------|--|
|  | CU00  | Can be used for all power range PU | 6DI+2AI+AO+DO+2Relay+RS485, 5 digital LED Keypad<br>1 option card  |
|  | CU01  | Can be used for all power range PU | 6DI+2AI+AO+DO+2Relay+RS485, Pluggable 5 digital LED Keypad<br>2 option cards, Support customer modification software |
|  | CXXX  | Can be used for all power range PU | Customizing  |

### Selection of option cards:

|  | Option cards | Description                           |
|--|--------------|---------------------------------------|
|  | PG01         | Common mode incremental encoder       |
|  | PG02         | Differential mode incremental encoder |
|  | PG03         | Resolver for speed/position sense     |
|  | DP01         | Profibus-DP                           |
|  | PN01         | ProfiNet                              |
|  | XX           | Customizing                           |

## 2. Friendliness of P200

Business Flexibility

Easy Installation & Maintenance

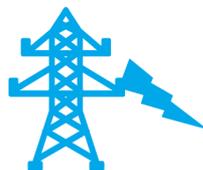

Pluggable terminals

Removable fan

Reliable Quality

Tough Grid

-10°C~50°C

High humidity

High dust

High Control Performance

IM/IPM/SPM/SRM

Vector/VF/SOL/SCL/TOL/TCL Control

### 3. P200 Industry Applications

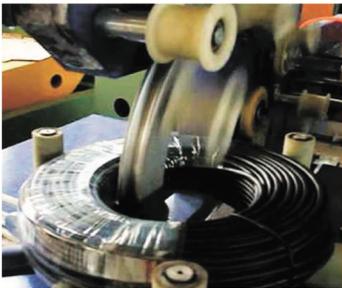

Printing &  
Packaging

Crane

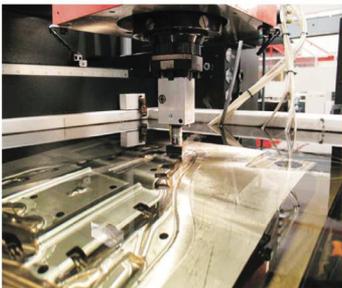

Textile

Paper  
Making

Cable

Automated  
Product  
Line

Machine  
Tool

Warm Air  
Conditioning

Petrochemical  
Industry

## 4. P200 Specification

### P200 Power Unit PU00/PU01 Specification

| Item                  |  | Specification   |                                     |
|-----------------------|--|---|-------------------------------------|
| Line in               | Voltage  | Single Phase 200~240V -15%~+10%;<br>3 Phase 380~480V -15%~+10%;   |                                     |
|                       | Frequency  | 50/60Hz±5%  |                                     |
|                       | Unbalance  | 3%;   |                                     |
| Out put               | Voltage  | 3 Phase 0~100% Line in voltage  |                                     |
|                       | Frequency  | 0~590Hz;  |                                     |
| Main Control          | Control algorithm  | V/F control, Vector Control   |                                     |
|                       | Start Torque   | 0.5Hz 150%;   |                                     |
|                       | Overload   | Heavy load type: 150% 60s, 180% 3s<br>Light load type: 120% 60s, 150% 3s  |                                     |
|                       | Switching Frequency  | 0.37~22Kw: 2k~16kHz;<br>≥ 30Kw: 2k~12kHz  |                                     |
|                       | Speed resolution   | Digital: 0.001Hz; Analogue: 0.5‰ of the maximal setup;  |                                     |
|                       | Speed accuracy at Speed Open Loop  | ±0.5% of Nominal speed  |                                     |
|                       | Source of Control Command  | Keypad, DI inputs, Bus communication  |                                     |
|                       | Source of Reference  | Keypad, Analogue inputs, Pulse inputs, Bus communication  |                                     |
|                       | Acieration/<br>Deceleration setup  | 4 sets of acceleration/deceleration time, range: 0.05-6000.00s;   |                                     |
| Basic Functions       | Speed open loop/speed close loop, Process close loop, torque control (with/without speed sensor), Motor auto tuning, Load compensation, auto DC voltage regulation, DC brake/AC brake, speed limit, current/torque limit, fly start, KEB etc.<br>Note: Speed close loop or torque control with speed sensor is OK only when a control unit and PG card are installed |   |                                     |
| Application Functions | Multistage speed control by terminals or PLC function, S ramp, Mechanic brake, counter, ProcessPID, Jog etc.   |   |                                     |
| Protection Functions  | Short circuit, Ground fault, line phase loss, under voltage, over voltage, over current, overload, over temperature, motor thermal protection, motor phase loss, control wire broken etc.  |   |                                     |
| Control Terminals     | 0.37-7.5KW   | DI (Only PU01)  | 2 Dis for NPN and voltage input     |
|                       |  | DO (Only PU01)  | 1 DO of 40mA                        |
|                       |  | RS485(Only PU01)  |                                     |
|                       | 11-22KW  | DI (Only PU01)  | 3 Dis for NPN and voltage input     |
|                       |  | AI (Only PU01)  | 1AI of Current and Voltage input    |
|                       |  | 10V (Only PU01)   | 10V of 10mA                         |
|                       |  | RL (Only PU01)  | 1RL for SPST with 3A/250V           |
|                       |  | RS485(Only PU01)  | 1 RS485/Modbus, maximal 38400bit/s; |
| Connector             |  | 10 Pin IDC connector  |                                     |
| Operation Environment | Protection Level   | IP20;   |                                     |
|                       | Operation Ambient Temperature  | Operating range: -10°C ~ 60°C<br>As heavy load type: Nominal current to 50°C, derate from 50°C<br>As light load type: Nominal current to 40°C, derate from 40°C |                                     |
|                       | Operation Ambient Humidity   | 5%-85% (No condensing at 95%);  |                                     |
|                       | Vibration  | 1.14g;  |                                     |
|                       | Altitude   | 1000m, derate from 1000m  |                                     |
|                       | Motor cable length   | Shielded Cable: 50m; Un-shielded cable:100m   |                                     |
| Others                | Brake Chopper  | Built in as default up to 22kW  |                                     |

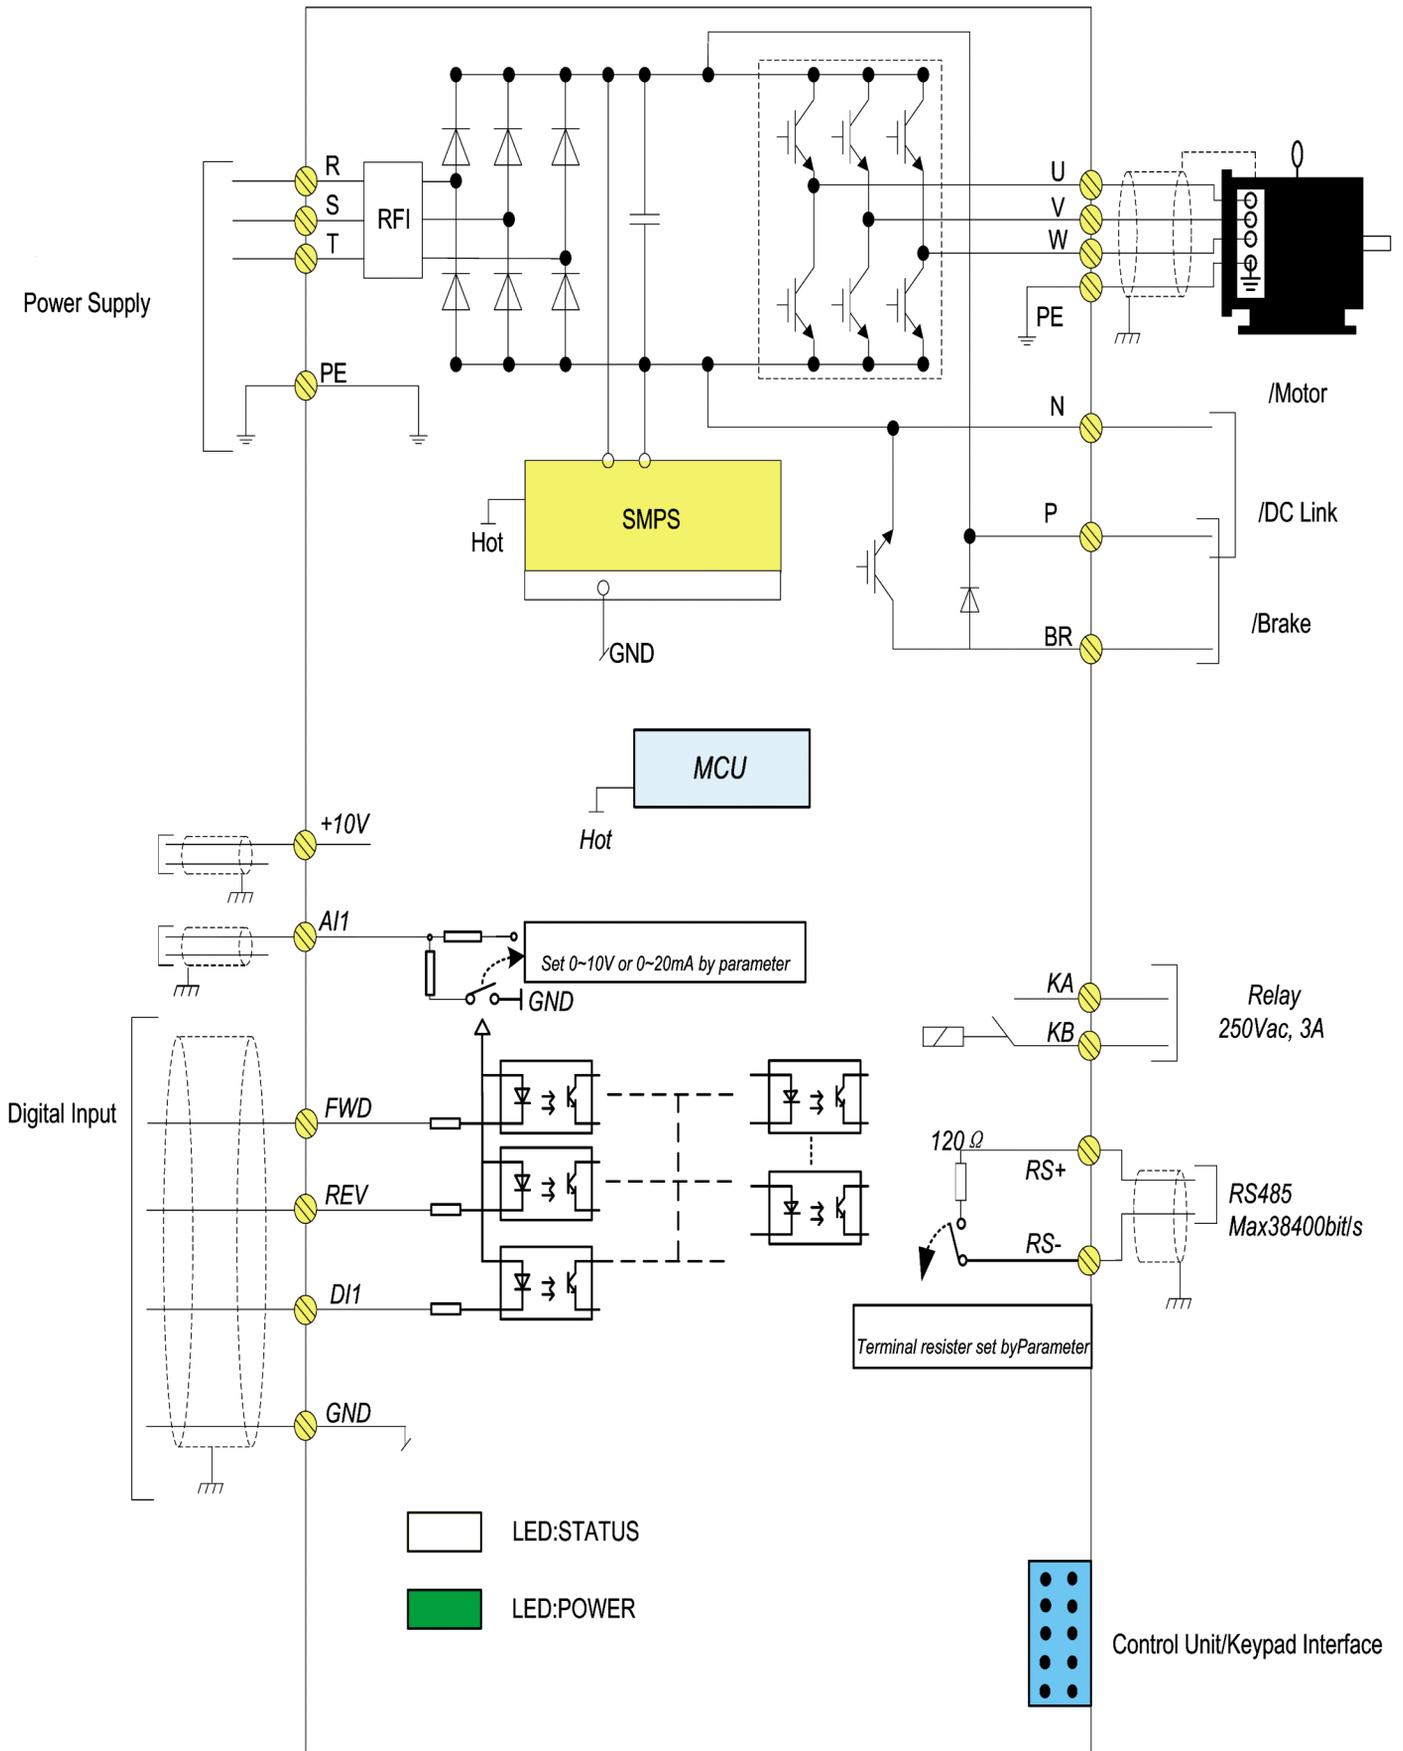

## P200 Control Unit CU00 Specification

| Name                         | Function                | Specification  |
|------------------------------|-------------------------|--|
| FWD, REV, DI1, DI2, DI3, DI4 | Digital inputs          | Input type:<br>NPN; PNP<br>Input Voltage: 0~30V;<br>Input Impedance: 3.6K $\omega$ ;<br>DI4 can be configured as pulse input   |
| DI4                          | Pulse Input             | Frequency Range: 0.00~100.00kHz;<br>Power Supply Range: 24V $\pm$ 20%;<br>Duty Cycle Range: 40%~60%;   |
| DO1                          | Digital Output          | Output type: Open Collector;<br>Output Current: 0~40mA;<br>Output Voltage: 0~30V;<br>Can be configured as pulse output:<br>Load Capacity: Resistive>1k $\Omega$ , capacitive <10nf;<br>Frequency Range: 0.00~100.00kHz;<br>Duty Cycle Range: 40%~60%;  |
| RS+, RS-                     | RS485 Communication     | Max Baud Rate: 38400bit/s; Configurable termination resistor, open in default  |
| FA-FB-FC<br>KA-KB            | Relay Output            | Resistive Load: 250VAC 3A/30VDC 3A;<br>Inductive Load: 250VAC 0.2A/24VDC 0.1A (cos $\phi$ =0.4);   |
| AI1, AI2                     | Analogue Inputs         | Configurable as analogue voltage inputs, analogue current inputs as well as digital inputs.<br>1 . As Analogue Voltage Inputs:<br>Input Impedance: 10k $\Omega$ ;<br>Input Voltage Range: 0~10V;<br>2 . As Analogue Current Inputs:<br>Input Impedance: $\leq$ 500 $\Omega$ ;<br>Input Current Range: 0~20mA;<br>3 . As Digital Inputs:<br>a) Input Type:<br>NPN<br>PNP<br>b) Input Impedance: 10k $\Omega$ ;<br>c) Input Voltage Range: 0-30V |
| AO1                          | Analogue Output         | Configurable as analogue voltage output or current output<br>Output Range: 0~10V or 0~20mA;<br>Load Capacity:<br>As Voltage Output: Impedance > 500 $\Omega$ ;<br>As Current Output: Impedance < 500 $\Omega$ ;  |
| VDD                          | 24V Power Supply        | Max 200mA  |
| +10V                         | 10V signal power supply | Max 10mA   |
| GND                          | Signal Ground           |  |
| PE                           | Safety Ground           |  |
| Other Connectors:            |                         |  |
| Connector for Option Card    |                         | Support one option card of different types, at the bottom of the Control Unit  |
| Connect for External Keypad  |                         | RJ45 for external keypad, at the top of right side of the Control Unit   |

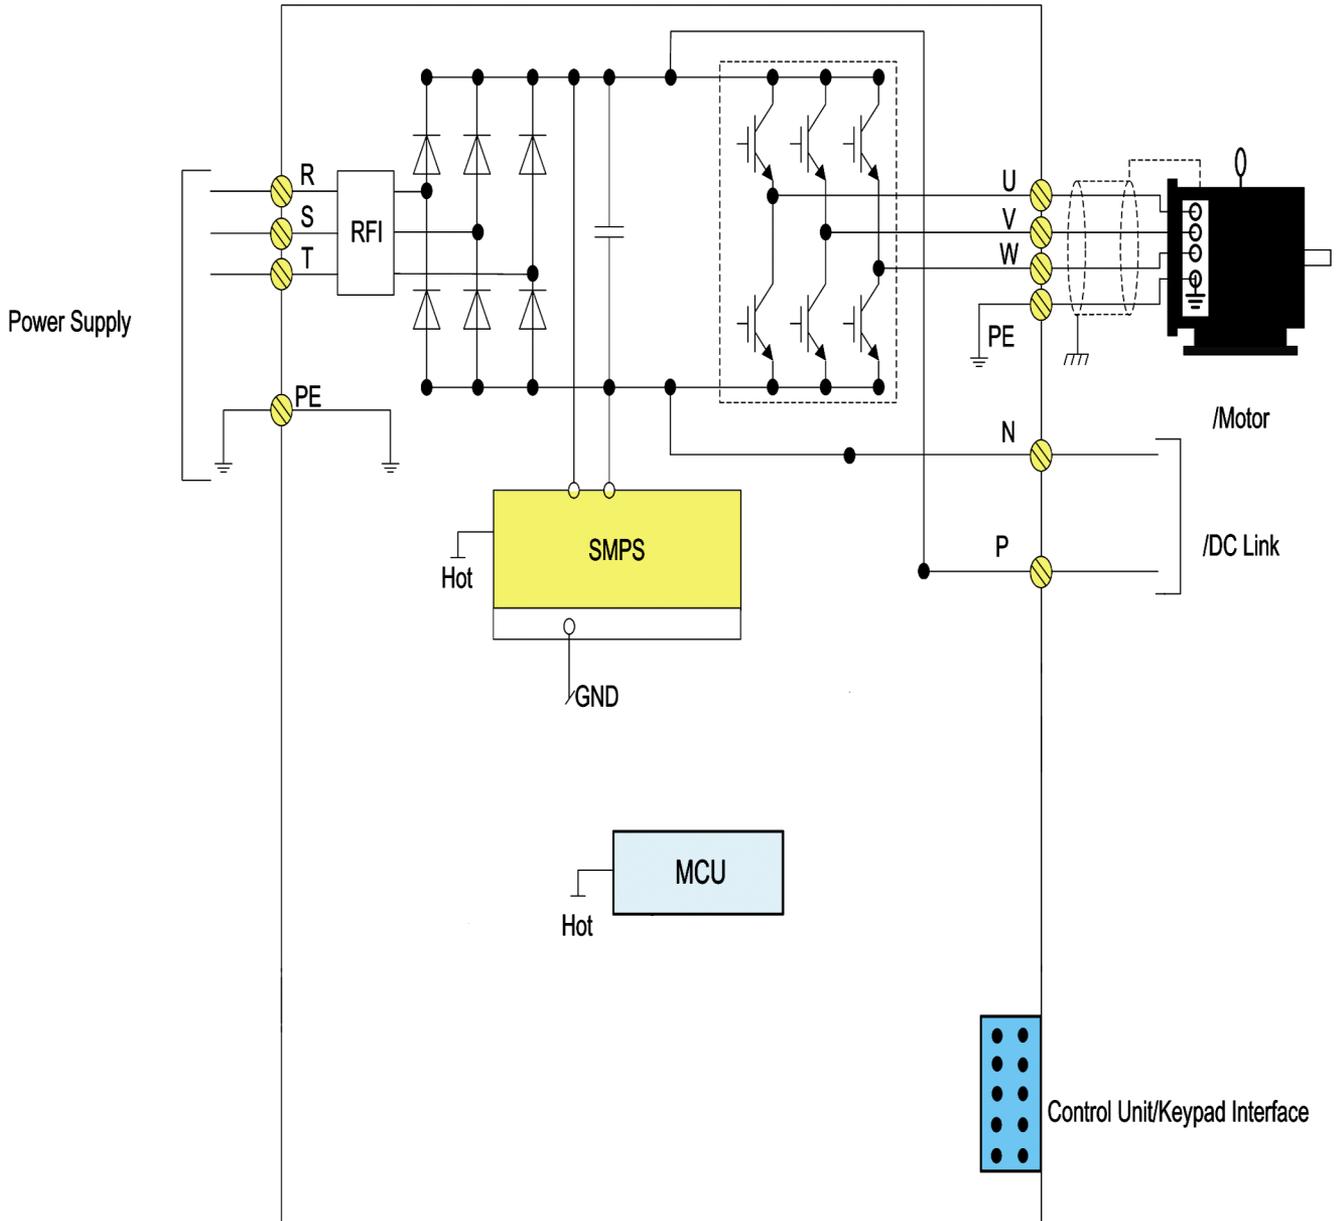

# 11-22KW PU00/01 Diagram

Note: For PU00, there is no terminals for IO Ports (RUN,/F/R,DI1,DO1, RS+,RS- and no Status LED lights. )

**Note:** Only models of PU00 are listed above, specifications of PU01 are the same as PU00 if the power is same.

## P200 Control Unit Selection Guide

| Model Type | Apply to PU Power | Apply to PU Voltage      |
|------------|-------------------|--------------------------|
| P200CU00   | 0.37-415 KW       | 1×200-240 V; 3×440-480 V |
| P200CU01   | 0.37-415 KW       | 1×200-240 V; 3×440-480 V |

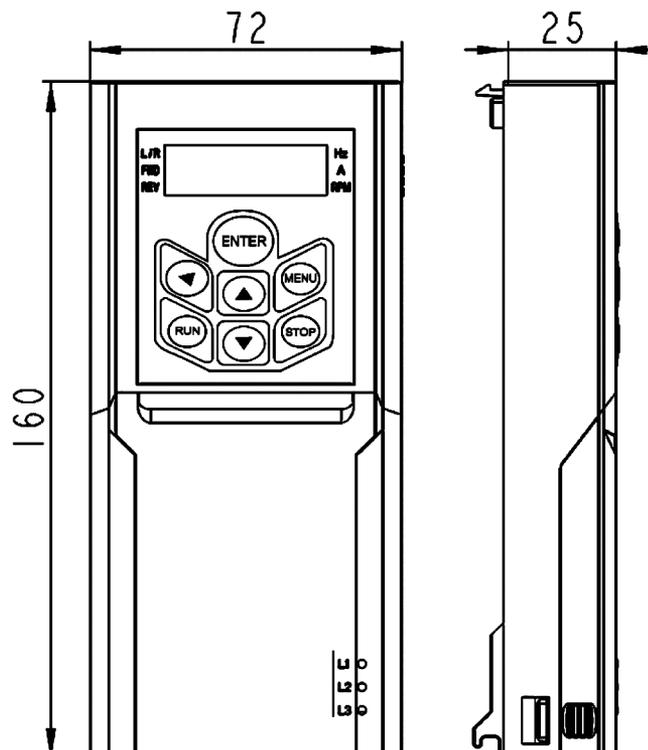

## 7. P200 Dimensions

### P200 Power Unit PU00/PU01 Dimensions

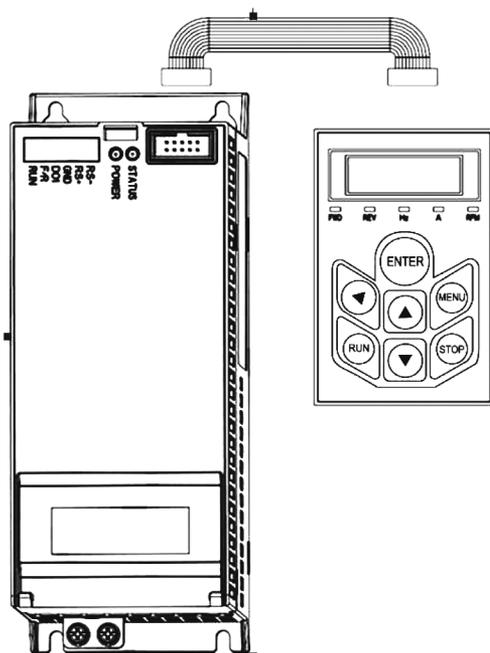

| Frame | Rated Power (Heavy Load Model) |            | Dimensions (mm) |     |     |     |     |     |
|-------|--------------------------------|------------|-----------------|-----|-----|-----|-----|-----|
|       | 1×200-240V                     | 3×380-480V | W               | H   | D   | W1  | H1  | d   |
| D1    | 0.37-1.5kW                     | 0.75-2.2kW | 72              | 185 | 125 | 55  | 175 | 4.5 |
| D2    | 2.2kW                          | 4.0kW      | 88              | 215 | 130 | 70  | 205 | 4.5 |
| D3    | -                              | 5.5-7.5kW  | 100             | 250 | 135 | 80  | 240 | 4.5 |
| D4    | -                              | 11-22kW    | 170             | 370 | 150 | 145 | 355 | 6.5 |
| TBD   | -                              | 30~415Kw   | TBD             |     |     |     |     |     |

### P200 Control Unit CU00 Dimensions

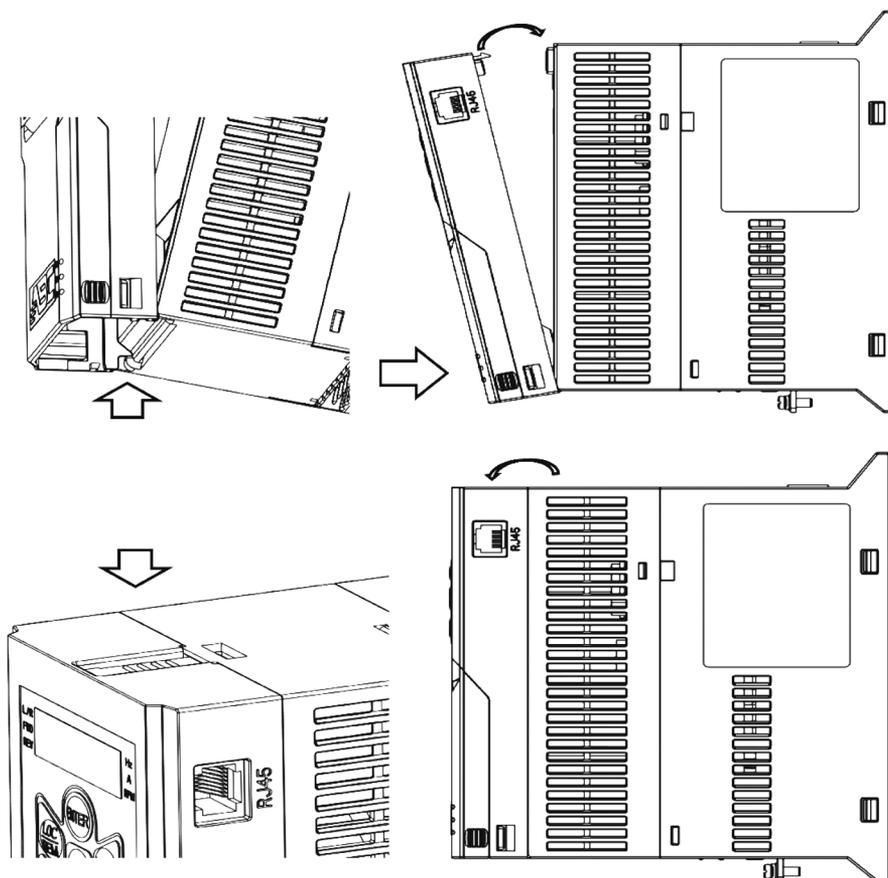

## 8. P200 Combination

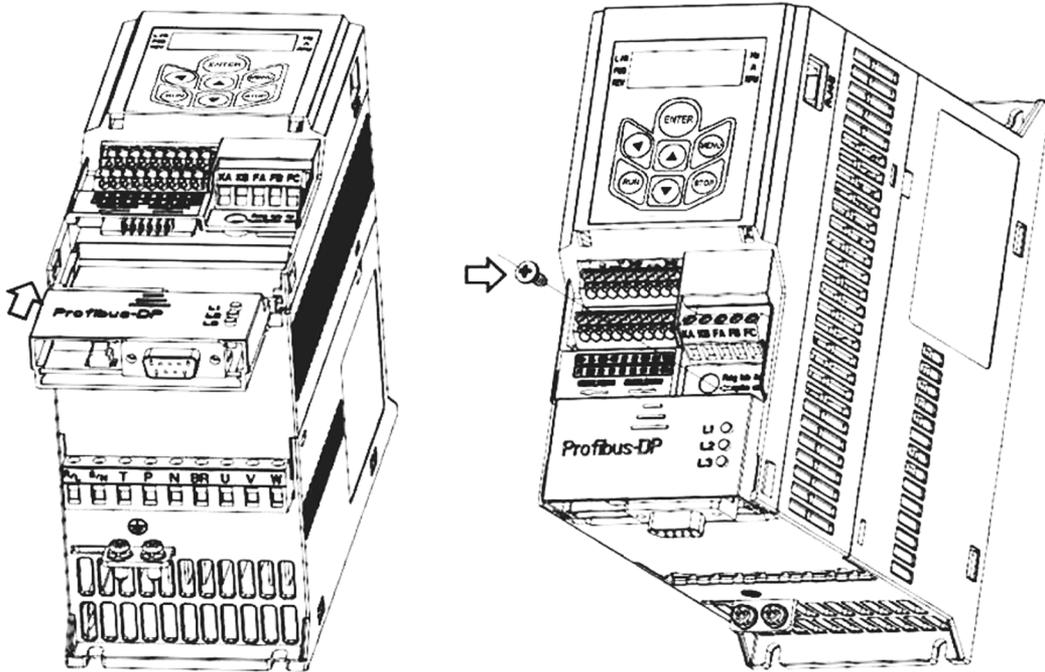

### Power Unit PU00/PU01 works alone

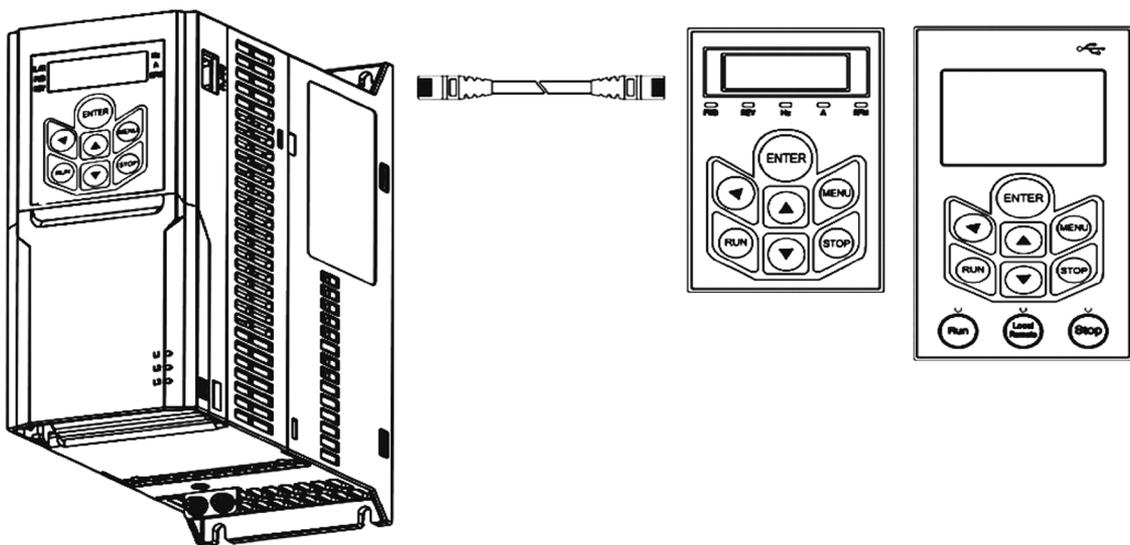

### Combine the Control Unit with Power Unit

## Use option card or keypad on Control Unit

Option cards on the CU

External Keypad on the CU
