

MT-BATTERY-UT673A

Battery tester

Measures capacitance, voltage,
resistance and status

Battery charging and starting test

12V/24V

Suitable for testing up to 10 battery
types

UNI-T

Battery meter

Display with capacity, voltage, resistance and battery life

Lead acid battery starting test 12V

Battery charging and starting system test of 12/24V

Specifications

Brand	Uni-T
Battery measuring range 12V	DC 7~16V
Measuring range of starting or battery charging 12V/24V	DC 7~30V
Capacity measuring range	3~250 Ah
Battery Types	Lead Acid, Flat Plate AGM, Spiral AGM, Gel and EFB
Display dimensions	128mm x 64mm (black & white)
Power	External source
Dimensions	142 (H) x 76 (W) x 22 (H) x [%VAR%] (F) mm
Weight	264 g
Display	Capacity, voltage, internal resistance, status
