

Key Features

144Hz refresh rate | Ultra-fast response time | AMD FreeSync™ technology | Low input lag for seamless gaming experience | Black stabilization for ultimate visibility

Product Description

The ViewSonic® XG2701 is a 27" Full HD monitor packed with all the speed and features that diehard gaming enthusiasts need. Featuring an incredible 144Hz refresh rate, as well as VESA Adaptive-Sync Technology, this monitor's variable refresh rate capabilities virtually eliminate screen tearing and stuttering for fluid gameplay during fast-paced action scenes. A blazing-fast 1ms response time and low input lag provides smooth screen performance even in the most graphic-intense sequences. For optimum speed and performance, SmartSync technology automatically selects the best refresh rate and response time, and lowest input lag needed in FPS games. For a game-winning competitive edge, a Game Mode feature optimizes visuals for FPS, RTS and MOBA. On top of that, a black stabilization function helps you target enemies lurking in the dark, while the monitor maintains brilliantly rich colors and contrast. With a gamer-inspired ergonomic stand that features an integrated headphone hook and cable management functionality, the XG2701 has all you need to conquer your gaming and entertainment quests.
